... a quality team."

Aleksandr Mogilny and Yuri Khmylev, two young Russian forwards, elevated Buffalo's play to a higher level with three goals each. Khmylev's goals came against Mike Richter, who replaced Vanbiesbrouck midway through the second period.

Richter didn't fare any better than Vanbiesbrouck. He allowed 6 goals on 21 shots and absorbed the loss, saving Vanbiesbrouck's record (2-8-2) from reaching ridiculous numbers against the Sabres. Despite the loss, Richter's record against Buffalo is 4-2-0.

... else, we'll try to do it," says Mr. Kucera.

The ability to distinguish different levels of risk has increased, Mr. Kucera says, because "the quality of data continues to improve." Computers now permit insurance companies to analyze losses more carefully and pinpoint levels of risk.

Using this information requires common sense as well as statistics. "We may find that people in red houses have a better loss experience than people with blue houses," Mr. Kucera notes, "but that may be only..."

CASINO FILES ARE FLUSH WITH DATA  
PHILADELPHIA INQUIRER (PI) - TUESDAY August 6, 1985  
By: Andrea Knox, Inquirer Staff Writer  
Edition: FINAL Section: BUSINESS Page: C01  
Word Count: 1,349

CASINO FILES ARE FLUSH WITH DATA

TEXT:  
Bally's Park Place Casino Hotel will reward about 100 of its biggest spenders with a free October weekend of...

...Howard Cosell during its 2d Annual Willie Mays Golf Tournament.

With hundreds of thousands of gamblers coming into a casino each

year, it is no simple matter to winnow out 100 reasonably good golfers who ...

Yet it was important to Bally's to find just such gamblers : Casino management had no intention of treating chintzy players to such a lavish weekend, nor of inviting rank duffers to play with Willie Mays.

To assemble the guest list, Bally's turned to its computer. There, tucked between the hotel room reservations and the payroll, is an electronic file listing the casino's biggest spenders and losers. Along with such pertinent information as betting patterns and the sizes of wins and losses, the file contains personal information including bettors' golf handicaps, clothing sizes and birth dates.

In a few minutes, the marketing department can...

... vice president at Bally's. "This system gives us the information we need."

From the gambling industry's earliest days in Las Vegas, casinos have lavished favors on heavy bettors to keep them from moving on to other casinos down the street.

Those who leave big sums on the table may be treated to...  
... to hotel rooms, show passes, New Year's Eve parties and helicopter transportation to the casino .

The value of such complimentary services, or "comps," can run as high as 18.5 percent of casino revenues, as it did last year at the Atlantis, and is rarely less than 10 percent.

For Atlantic City's casinos , such big spending came easier in the heady early days, when the industry's revenues...

... about controlling expenses," said Stephen P. Crane, co-author of a report on Atlantic City casino performances that was prepared by the Arthur Young accounting firm.

But with new casinos opening every year the heady days are over. Casinos registered only a 3 percent gain in revenues last year, and operating profits were down...

... percent, putting managements under increasing pressure to wring an ever-higher profit margin from their gambling operations.

To meet the pressure, the casinos have turned to the computer.

At each of the 11 Atlantic City casinos and a growing number in Las Vegas, house computers track every bet, win and loss of every big gambler .

In the older, smaller Las Vegas casinos , the pit bosses who watched the action could keep track of players' bets, and thus their eligibility for comps, as they moved from table to table. But in the bigger Atlantic City operations, "a player gets lost," Barr said.

That means a player who ought to get a comp may be overlooked, or that comps may go to players who are not spending enough money to deserve them.

The computer has not replaced the...

...keeps track of play at a cluster, or "pit," of tables, and who in most casinos is the ultimate judge of who will get comps.

But the computer has put at his disposal much more information about a

gambler than he might otherwise have.

Using the terminal in his pit, he can find out how much the customer has bet today and in the past, and what comps he has received.

That kind of check...

...who has not played much today but has been a good customer in the past.

Casino managers said the system can pay off handsomely.

"We did a survey the first week...

...comps, "we are now approving them for those who should have them," Gensamer said.

A player's record is created either when he applies for credit or when he puts down...

...attention of a pit boss. His play is then watched wherever he is in the casino, with the amounts of his bets and the number of hands he plays in a given timeframe entered into his record by a pit clerk sitting at a computer terminal.

Casino marketing departments have benefited, too, as systems are increasingly used to keep track of personal information in order to arrange comps that appeal to a players' interests.

That way, Sinatra fans can be given first preference for a Sinatra concert, and...

...will get the tournament invitation from Bally.

At Bally, the system goes even further, linking casino information with hotel and restaurant information in a system that updates the record instantly. There...

...City last year on comps, 9 percent of its revenues.

At the same time, the casino logged the city's highest operating margin, \$84.7 million on revenues of \$1.55...

...idea of using the computer to wring more money from its table games, a few casinos are looking at the other side of the house: slot machines.

Until recently, there have...them is hard to track so there has been no good way to comp slot players, and machines that need fixing or are unpopular are hard to identify. But slots are so important in Atlantic City, where they generate about half the revenues, that casinos are experimenting with computer systems that deal with both those problems.

Harrah's Marina Hotel Casino issues plastic cards to slot players who want to qualify for comps. When a card is inserted into a reader on...

...pulls. It feeds that information into a central computer at 4 a.m. when the casino closes, enabling repair crews to immediately fix the machines.

With about 200 machines out of...

A WHOLE NEW BALL GAME

MIAMI HERALD (MH) - SUN DEC 18 1988

By: JOHN DORSCHNER Herald Staff Writer

Edition: FINAL Section: TROPIC Page: 8

Word Count: 8,852

...cars swing into the Dania fronton parking lot.

The drivers look straight ahead, avoiding the players' angry stares.

"Don't support the scabs!"

When they hear the shouts, some drivers hunch...

...they were about to be attacked.

"Shame on you!"

The national strike of jai-alai players is now in its seventh month. It is by far the longest strike in the history of American sports. It began as a search for "dignity" -- a quest that the players have been pursuing for more than 20 years -- but it soon became something uglier, a...

...aren't Americans -- what does that have to do with anything?"

The answer is, for better or for worse, it has a lot to do with a great many things.

Both...

... that the strike has indelibly altered the ancient game of jai-alai. Where once the players had names like Arra and Bolivar and Lasa, now they are McGee and Ken and Plotkin. Where once the players were hardened peasants from the Pyrenees Mountains who knew nothing but jai-alai, now many players have regular day-time jobs as well: a cop, a bank manager, a dentist.

The...

... and other union leaders point out is this: There are very few American jai-alai players. Unlike football, where thousands have played for hundreds of colleges across the country, there are...  
... on a small court before turning pro -- which is roughly akin to a weekend softball player suddenly finding himself in a New York Yankees uniform.

Because there is now a mixture of nonstriking players and replacement players on the court, the play is oftentimes mismatched, oftentimes erratic, sometimes comical. This is unnerving...

... state investigators say they uncovered game fixing at the Palm Beach fronton engineered by replacement players. A player and a gambler were arrested. Another player, suspended in connection with the same case, is a convicted thief. And a third Palm...

... Melbourne fronton: "Before the strike, if I had filled out an application to be a player and I put down I have been arrested on 11 counts of bookmaking, my application...

...42 percent. Fronton officials claim that some of the reduction is due to competition for bettors' dollars from the new Florida Lottery, but at the

Hartford fronton in Connecticut, where lottery...machinists demand \$19.45 an hour and the airline says \$15.25 tops. Though the players want higher salaries and better benefits, there are no specific demands. No specific responses. The frontons do not recognize the players association. Basically, the players want a little more money and a lot more security.

Currently, if a World Jai-Alai player is injured during play, he gets full salary for only 30 days, then 76 percent...

... of the year, then 50 percent until his contract expires. By comparison, major-league baseball players are paid for the length of their contract, injured or not, and then, if they are still disabled, are covered by a generous pension. The jai-alai players want something roughly like that. If this sounds vague and generalized, that is because it is. Striking players are uncomfortable talking about numbers. They talk about emotions. After all, this whole affair began...

... I am a dignity man," says Sotil, el padre. "It is time for dignity. These players are not asking for money. They are asking for dignity."

Richard Donovan, president of World...

...guy can't make up his mind."

This is, of course, a marked exaggeration -- the players would consider it an ethnic slur -- but most of the striking Basques agree that there...

... and sling the ball. Over time, the basket developed into the curved cesta that all players now use.

Games were partidos, up to 35 points, singles or doubles, played on a ...

...that beginners are required to use soft rubber balls: The worst injuries occur when a player accidentally hits a competitor standing only a few feet away. One such injury, to ...front walls, or Gunite. Such speed and force make the game a ferocious spectacle, and players talk about jai-alai as an art.

In the Western Hemisphere, jai-alai began in...

... lost, but few Americans knew enough about the sport to realize what was missing.

The players themselves, of course, understood that they were being reduced to being dogs or horses, and...  
...animals run for a minute or two, followed by 25 minutes of nothing while the bettors pick their next selections, a jai-alai game takes roughly 15 minutes, with 10 minutes...

... shooting, beach volleyball, wrist wrestling and skateboarding occupy time, jai-alai is never mentioned.

The players are the property of their individual frontons, and they never play each other. Joey, the...

... one in Quincy, Fla.) to the larger ones, but there is very little movement of players between the top frontons. Smaller fronton players earn under \$30,000 a year. (Union leader Glenn Jones says he earned \$22,000 ...

... in Daytona Beach and Melbourne.) In Miami and Dania, salaries average about \$50,000 a player, but many early-game players -- the lower-ranked players, who play before the heaviest betting begins -- earn

around \$30,000. The top stars -- Arra at Miami...

... from earning bonuses for performance. At Dania, for example, in the early games, each winning player in a doubles game gets \$25. The second place guys get \$15 each, third place...

...a little more: up to \$37.50 each for first. In singles, of course, a player doesn't split with a partner and can earn up to \$75. Either way, the...

... high rollers who may bet several hundred on a game -- a fact of which the players are intensely aware.

Being called by a number, having little say about their salaries, many of the jai-alai players over the years felt like they didn't dare speak up because the vast majority...

...discontent. In 1968, it erupted.

At the end of the winter season, in April, the players formed a group they called Montepio and told the fronton owners they would not return unless management made some stunning improvements in their status. With that, most players returned to the Basque country, feeling proud that they had stood up for their rights...

...with any American union group to help their cause.

After a few months, the Montepio players realized the futility of their effort and tried to regain their jobs.

One of them...blackball. Some went into court and sued. The frontons fought back. Most of the old players gave up, found odd jobs, went back to the Basque country.

Ricardo Sotil kept fighting...

...dismissed.

But Ricardo Sotil could not forget. His sons did not forget. And many other players did not forget. The '68 strike remained an ugly scar on the memories of the...

... end of the matinee performances at the Bridgeport, Conn., fronton, a 29-year-old journeyman player, Pedro Olarreta, walked through the locker room and passed around copies of a four-page typewritten letter in Spanish, entitled, "The Process of Jai-Alai."

As the players sat by their lockers and listened, he announced he was quitting. He tore up his...

... His threat of a hunger strike might seem oddly quixotic to Americans, but the Basque players viewed it as a sincere and important form of protest. The idea electrified the players: Someone had finally had the guts to stand up.

Within a couple of days, Olarreta...

...They say that the game is in one of its worst moments. The jai-alai player is discontented." Twenty years after the '68 strike, "the player still doesn't have statutes or federations or other type of support to defend himself...

... and Florida, explaining the situation and asking them to join the fledgling International Jai-Alai Players Association. Of the 526 pelotaris, 435 signed up.

Almost all the top Basque players joined: Arra, the star of Miami;

Bolivar, of Milford; Lasa, of Hartford, the son of Ricardo Sotil. Many American players, especially from the smaller frontons, where the pay was low, decided to join. But the...

... seemed mainly for Basques. Olarreta's letter had been in Spanish, sent to the Basque players, and when talk about the union started, it began with Jorge Sotil huddling in the...

...and everyone else loses."

Management was fighting back. At the Miami fronton, Alfredo Garcia, the players' manager, called the players together and warned them about the danger of unionization. He himself, he said, had struck...

...Hostess Twinky truck while pursuing dignity.

At the Dania fronton, management held a meeting with players and asked if there were any grievances. No one said anything. Forty of Dania's 44 players joined the association. The time for dialogue was past.

officially, says Steve Snyder, president of...

... pari-mutuel sport, "you need a very vigorous discipline." There must be no arguing between players, no arguing between players and officials, not the slightest bit of scandal. A union, the fronton owners believe, interferes... management was going to continue to control the sport, or whether it would be the players.

Donovan of World Jai-Alai: "They wanted us to roll over on the front end. So the Sotils would be in charge." He suggested his players pursue the legal process, but he didn't believe they would: "I told everyone: we ...

... Jai-Alai: "We will do everything we have to to continue, including bringing in amateur players."

That first night, frontons in Fort Pierce, Palm Beach, Tampa, Melbourne and Daytona Beach didn't have enough players and shut down. The Miami fronton opened, with 17 regular players, plus five nonstrikers from its Fort Pierce satellite, and any amateurs management could find. One...

... the fronton and, shortly after the ninth game, rushed the screen, shouting at the new players. They were arrested for disturbing the peace. Some nonstrikers' tires were slashed. Fernando Orbea, the players' manager at Dania, and his son, a nonstriker at Miami, had their tires slashed and...

...t going to worry about it."

Kent "Kent" Getsee, 26, who became the top singles player at the Miami fronton after the great Arra went on strike: "It was a funny...

... styles lately -- some swing the cesta like they were throwing a baseball."

In Connecticut, the players were so inexperienced that the state regulatory body at first only allowed them to play...

...a representative of the Connecticut Gaming Board.

In Florida, however, state officials accepted the new players without question. No checking was done. Some of them were lulus. At world Jai-Alai...

...But he didn't have much to apologize about: He actually had one of the better records, with 8 wins in 41 games at Fort Pierce. (Last month,

after turning 16, Martinez started playing again...

...won his first two games.)

At Palm Beach, journalists discovered that two of the new players had criminal pasts: Howard Charatz had been found guilty three years before of two bookmaking...

...grand theft charges and later went to jail for violating parole.

After journalists revealed these players' pasts, the state said it would investigate, because state law prohibits convicted felons from being associated with the pari-mutuel industry. But then the two players presented evidence that the judges in their cases had withheld adjudication of guilt -- a "break...

...or residents of the United States of America. In contrast, 93 percent of the striking players ARE NOT UNITED STATES CITIZENS AND ARE RESIDENTS OF A FOREIGN COUNTRY! It is obvious...

... the present level of employment of AMERICAN CITIZENS AND TAXPAYERS can be maintained."

Among the players, the strike was splitting friendships. For years, Kent Getsee and Robert "Cameron" Cameron, who played...Thursday night, in the Dania fronton, the early-game pelotaris were gathering in their private players' area that stretches over two floors behind the back wall. The public never gets to see...

... strictly human performance, the laws are strict: No inside information, no outsiders dropping by, no players going out between games. During the evening's performance, players cannot even make or receive phone calls.

On the first floor are the lockers. Up narrow stairs is the office of the players' manager (with a screen overlooking the court), a players' viewing room (another screen looking onto the court, along with a PacMan machine), then down...

... in these rooms was in Spanish. Now, it's mostly English, the happy babble of players who have seen their hobby become a profession: something like going from your neighborhood asphalt...

...just below the knee. Injuries in jai-alai are not infrequent: Six of the 57 players at that moment were out with injuries.

"It's not too bad," Garby said. "I...

... kept practicing after he moved to Florida. Of the strike, he put it simply: "The players did what they had to do, and I did what was best for me."

Mark...

...hard pelota.

"I was strictly rubber ball," he said, "till I started here."

In the players' manager's office, Fernando Orbea sat at a cluttered desk smoking a long dark cigar...

...angry.

During the '50s and early '60s, Orbea was one of the greatest jai-alai players in Miami and Cuba. He had been a striker in '68, though it was a ...

... them, the same way that, say, a Tommy Lasorda would avoid offending any

of his players if it came to that.

A visitor asked him what he thought about his new players. Only four of the 52 were on the Dania roster before the strike.

The great...  
... to recognize the union, but is actually about "unfair labor practices." Among the accusations: forcing players to sign illegal "yellow-dog contracts" (in which they had to promise not to strike or to picket) and shifting player association leaders between the four frontons of world jai-alai as they tried to organize the players. If the NLRB eventually finds that unfair labor practices are involved, it can force the frontons to rehire the players and, under certain conditions, ...of attorneys and \$100 apiece each week in strike benefits.

A short time later, the players association announced that all strikers would voluntarily and unconditionally return to work, while they continued...

... in NLRB hearings. This offer was similar to the one that the National Football League Players Association made last year. NFL owners accepted that proposal, and all the players returned to work, but the fronton owners have said that their situation is not similar: Because of altered economic conditions, they could not take back all the striking players. Some owners said they would rehire some strikers and put others on preferential lists. Others...

...striking workers in any fronton."

Lounging on a piece of exercise equipment in the Dania players' room, smoking a thick cigar, Joey "Joey" Cornblit casually asked the fronton PR man what kind of trophies were going to be given out this year for the best players. The PR man mumbled something about cups and plaques. Joey shrugged. His walls are covered...

... into the professional ranks, but he was the first American to be a top quality player. He was Dania's leading player before the strike, and now, with the reduced competition, he is expected to record the most wins ever in a single year.

He started at the Miami fronton, but became enmeshed in...

...Joey has been at Dania now for three years.

Though he was pressured by other players, Joey steadfastly refused to join the union. At 33, at the height of his abilities...

...complain: "I'm a big boy -- I can take it."

On playing with the new players: "We're professionals, and we adjust. . . . Management has to do the best they can. . . .  
"Obviously..."

...I've busted my ass since I was 12 to become a great jai-alai player, and I don't want to lose that. I want to keep everything I've...The problem is that people don't see it as a sport. It's a gambling business, and until that changes, then the players aren't going to have any real...

Title: Maintenance scheduling based on two level hierarchical structure to equalize incremental risk

Abstract: The authors propose a new goal of maintenance scheduling, which is to equalize incremental risk, such as loss -of-load- probability throughout the year, rather than to equalize risk or reserve. It is shown that better schedules can be found using this method. In order to simplify the combinatorial problem and...

The relationship between emotional intelligence and coaching effectiveness in Division I head softball coaches

Author: VanSickle, Jennifer Louise

Degree: Ed.D.

Year: 2004

Corporate Source/Institution: University of Kentucky (0102)

Source: VOLUME 65/12-A OF DISSERTATION ABSTRACTS INTERNATIONAL.

PAGE 4508. 100 PAGES

ISBN: 0-496-90665-8

...selected Division I head softball coaches and coaching effectiveness. Sixteen head softball coaches and their players from two NCAA Division I conferences completed the Emotional Competence Inventory (ECI) as a measure of emotional intelligence. Coaching effectiveness was measured by win - loss record and athlete satisfaction, which was determined through completion of the Athlete Satisfaction Questionnaire (ASQ). Results of both the ASQ and the ECI were compared with respect to the player's role, years played for the current coach, and amount of athletic scholarship. Finally, results of the ECI were compared to overall and current win - loss record and athlete satisfaction to determine if a relationship existed between emotional intelligence and coaching effectiveness...

...related to at least one measure of coaching effectiveness. Self-Awareness was related to both win - loss record and athlete satisfaction. Social Awareness showed a positive relationship with current win - loss record and Relationship Management was positively related to overall win - loss record.

Results of this study also indicated a discrepancy in coaches' self-ratings on the ECI as compared to the ratings by their players, with coaches consistently rating themselves higher. Additionally, results showed high levels of satisfaction among athletes who play for coaches with a current winning record. Finally, results revealed a negative relationship between years...

**Problems with weighted-average risk ratings: A portfolio management view**  
Fadil, Michael W  
Commercial Lending Review v12n2 PP: 23-27 Spring 1997  
ISSN: 0886-8204 JRNL CODE: CLV  
WORD COUNT: 2418

...TEXT: Few commercial bankers would disagree that risk ratings are at the very foundation of credit risk management. At a fundamental level, they express the credit quality, or risk, of a particular facility or borrower. Risk can be quantified as the probability of a borrower defaulting or, even better, the probability of loss on a loan. For any loan, therefore, the risk rating conveys to management much more than a simple ordinal ranking of risk but rather a quantification of credit risk.

Risk ratings are also the means by which...

...regulators aggregate credit quality. The conventional method used to aggregate risk is the weighted-average risk rating (WARR). This summary level information can be expressed on numerous risk dimensions. Industries, lines of business, lending units, and...

Optimizing a Company's Loss Retention Level  
Laborde, Lucien P., Jr.  
Risk Management v38n2 PP: 54-59 Feb 1991  
ISSN: 0035-5593 JRNL CODE: RMT  
WORD COUNT: 1776

...TEXT: cost projections, coverage and payout schedules and the after-tax short-term borrowing and investment rate .

Before performing the analysis, risk managers should try to answer four fundamental questions: How much can the entity afford to...

...worth the additional risk?

Research over the past 11 years has enabled risk managers to better answer these questions, although professional judgment is still required. The solution lies in performing four analyses : critical constraint, loss probability , present value and discounted payback. When identified and cross-checked, this process determines optimal retention...

... corporate insureds are put into underwriting categories. The price of the insurance contract represents the probability of loss represented by the particular class of insureds. If we price health insurance contracts according to underwriting principles, the insured has an incentive to get into a better underwriting category.

If we want more coverage for small group policyholders, we must allow small employers to form risk purchasing groups, which could negotiate large group rates. The insurance carrier would offer a standard group policy, but employees could select customized features that match their financial needs...

... could arise from off-balance-sheet items. The objective of these new regulations was to better match bank capital with the risks inherent in the bank's assets. Because banks with riskier portfolios have a greater probability of large losses, requiring higher capital for riskier institutions is a substantial improvement.

Because asset classifications under the Basle Accord were not sufficiently precise to adjust for all types of risk, and in particular because interest rate risk was not incorporated into the original ratios, regulators adopted an additional requirement for U.S...

Detailed Description

Detailed Description

... in derivatives trading has also been enormous. According to the  
Federal Reserve, the annualized growth rate in foreign exchange and  
interest rate derivatives  
turnover alone is running at about 20...

...and even national governments and agencies are all active in the  
derivatives markets, typically to better manage asset and liability  
portfolios@ hedge financial market risk, and minimize costs of capital  
funding. Money managers also -frequently use derivatives to hedge and  
undertake economic exposure where there are inherent risks, such as risks

of fluctuation in interest rates , foreign exchange rates ,  
convertibility into other securities or outstanding purchase offers for  
cash or exchange offers for cash...

... how much money the player has inserted into the gaming device 104 over  
time. A player who has inserted money, especially a relatively large  
amount of money (e.g., \$50 or...

...outcomes. The gaming device 104 may therefore adjust a parameter to increase the maximum potential rate of play .

Another criterion that may be used might include a player making wagers with an increasingly larger loss probability . For example, a video poker player who tries to complete straights or flushes instead of merely accepting smaller payouts for pairs may desire a different rate of play .

Another criterion that may be used might include, for example, a player 's average number of lines played over the last twenty pulls is two more than the player 's average number of lines played over the prior twenty pulls. Other related statistics include...

Detailed Description

Detailed Description

... with gaming machines.

The prior art has not addressed, at least from the consumer or player's point of view, providing convenient means for effecting financial transactions in the gaming environment...ensure compliance with these regulations.

Several problems frustrate the ability of a player and a casino to monitor or track player wins and losses. In most game play scenarios, a player places ...player to track the total amounts wagered and paid out

for determining total loss (or win). A casino may attempt to track a player's play with a player tracking system where a gaming machine provides coin...

...the system. A player not using the system may lose hundreds of dollars without the casino being aware of the loss, in violation of the regulations.

Casinos are continually looking for new ways to entice existing players to play games, and draw in new players. In some instances, casinos track player game play and, if the player's level of play reaches a certain...

...player independent of the any winnings the player receives from game play. For example, the casino may offer the player a free night's stay at a hotel associated with the casino. This system offers little player interaction, however, with the discretion of awards left to the casino.

A system and method for monitoring player financial transactions, including tracking of player loss, is desired. It is desirable to provide one or more methods and devices which serve...

...methods and apparatus for tracking, effectuating and/or monitoring financial and reward transactions in a casino or gaming environment. One embodiment of the invention comprises a method and system for monitoring player financial transactions for tracking player loss.

One embodiment of the invention comprises a financial monitoring system. The system includes...

...data with a player's file or files. Means are also provided for determining a player's loss. In one embodiment, this means

?
